FOLLOWING SUBJECTS.**

Nautical Charts for the seas surrounding Turkey

List of lights and Fog Signals covering the Black Sea, Sea of Marmara,  
Aegean Sea and Mediterranean

Nautical publications and tables

Oceanographical research publications

Geophysical research publications

Marine Meteorology publications

Maneuvering and plotting sheets

Laws and Regulations appertaining to maritime and sailing directions

Weekly Notices to Mariners

Miscellaneous publications as aids to navigation

## USE OF CATALOGUE OF NAUTICAL PUBLICATIONS AND CHARTS

1. The smallest scale charts of the Black Sea, Sea of Marmara, Aegean Sea and Mediterranean published by the Department of Navigation, Hydrography and Oceanography are indicated in the index on page 2.
2. "SEE PAGE ..." notes are indicative of the catalogue pages of the area's larger scale charts.
3. For the large scale chart series of Black Sea and Eastern Mediterranean the note "ADJOINING PAGE IS ..." is printed on the catalogue notes.
4. Chart numbers are in upright position while the plans in a small scale chart are in italics.
5. The chart numbers of the international (INT) chart series are preceded by the mark (\*).
6. To keep this catalogue, Navigation charts and nautical publications corrected up-to-date, follow the **Weekly Notices to Mariners**. (See Corrections to Charts.)
7. **Publication terminology :**

**New Chart :** The first publication of a chart so as to meet the navigational requirements of an area.

**New Edition :** A new issue of an existing chart, containing amendments essential to navigation replacing its previous editions including the latest navigational information in addition to Notices to Mariners registered on the chart.

**New Print :** A reproduction making use of (utilizing) Notices to Mariners bringing about a new edition of an existing chart in which amendments that of navigational safety are kept invariable. (Kept to a minimum).

**Reprint :** A new print of the current edition of a chart unaffected by Notices to Mariners as it cannot be obtained from a stockholding. The existing dates in this chart are kept invariable and reproduced as like previous issues.

### 8. Information Catalogue Pages:

**Number of the chart :** Magenta numbers printed below/above national numbers bearing relation to the national scheme, black numbers in the bottom-left hand and the top-right hand corners, and international (INT) schemes.

The chart numbers are started with **1** in the Black Sea, with **29** in Sea of Marmara, with **2** in the Aegean Sea and with **3** in the Eastern Mediterranean.

The passage charts on a scale of between 1 : 1 500 000 and 1 : 500 000 and the coastal charts on a scale of between 1 : 500 000 and 1 : 150 000 are in **two** digits.

The charts on a scale of between 1 : 150 000 and 1 : 50 000 appertaining to the port approach and the congested and intricate waters are in **three** digits.

The anchorage and narrow strait charts on a scale 1 : 50 000 and larger are in **four** digits.

As far as this system is concerned, when navigating on chart 112, the plan's number - the initial three digits starting with 112 - will contain four digits. On the other hand, the first three - digit navigation chart can be found out without taking into account the catalogue so as to be able to move on to a chart of smaller scale than that of a four - digit plan.

**Title :** The geographical names defining the area covered by the chart. The name disused or rarely used by the authorities is given in brackets in case an area is in possession of more than one familiar name.

**Scale :** The mean latitudes of 1 : 500 000 - 1 : 150 000 scale coastel charts are 41°30' and 44°00', for the Black Sea, 39°00' for the Aegean Sea and 36°00' for the Eastern Mediterranean.

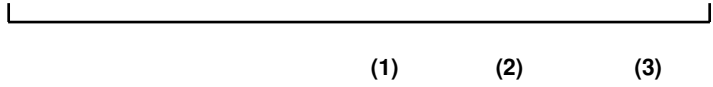

The mean latitudes of 1 : 150 000 scale charts are 44°00' 1 : 100 000 scale charts 41°30' for the Black Sea, 40°40' for the Sea of Marmara, 38°00' for the Aegean Sea and 36°00' for the Eastern Mediterranean.

The scales of the portolons are in accordance with their own mid latitudes.

**Boundaires :** Adjacent small/medium scale charts overlap each other and their corner coordinates are noted in the catalogue.

**Dimensions :** The dimensions of inner borders indicated in the bottom right - hand corner (mm).

**Date of Publication :** The original date of publication date of the charts, this date is to remain unchanged ant it is supplied outside its bottom margin in the middle as shown in diagram (1).

Deniz Kuvvetleri Komutanlığı  
SEYİR, HİDROGRAFI ve OŞİNOGRAFI DAİRESİ BAŞKANLIĞI  
tarafından yayımlanmıştır.  
14.VIII.1971/İSTANBUL

**Date of (last) New Edition :** The latest date of Notices to Mariners applied to (incorporated on) a newly published chart is given and this is shown to the right of the Date of Publication of the chart.

(2)

Yeni yayın : 19.VI.2000

**Date of Printing :** The date the chart is actually printed is the same as the date of Notices to Mariners subsequent to its production and is displayed to the right of the bottom margin (Diagram 3).

(3)

Baskı tarihi : 26.VI.2000

## IMPORTANT

### CORRECTIONS TO CHARTS

The charts contain all essential information gathered up till the date of publication. The information and alterations obtained subsequently are kept corrected by **Weekly Notices to Mariners** promulgated by the Department of Navigation, Hydrography and Oceanography.

Newly published nautical publications and charts and those that have fallen into disuse are promulgated through **Notices to Mariners, Weekly Editions.**

The nautical publications and charts are kept corrected day-to-day by the Department of Navigation, Hydrography and Oceanography and are despatched rubber-stamped accordingly from the time they are started to be distributed till the latest issue of **Weekly Notices to Mariners.**

**THE RELIABILITY OF THE INFORMATION CONTAINED IN THE CHARTS CAN BE MAINTAINED ONLY BY DAY-TO-DAY CORRECTIONS.**

The **HYDROGRAPHIC MEMORANDUMS** added to the end of Weekly Notices to Mariners for the provision of navigation safety should be filled in accordance with the explanations disclosed (on the page).

Any concern hazardous to the safety of navigation is required to be reported to the address below by means of telegraph. The postal service will not charge any fee according to the Board of Ministers Decree number 6/6218.

Telegram address : Hydrography  
Çubuklu 81647/İSTANBUL

#### \* INTERNATIONAL (INT) CHARTS

In order to promote the use of a local standard chart in place of the charts of different nations facilitated by all marines at sea has concurred to produce **the International (INT) Chart Series** with local hydrographic commissions.

**REMEMBER THAT A DANGER NOT REPORTED MAY COST THE LIFE OF MANY OTHER MARINERS.**

Production responsibilities of these charts has been handed over to the coastal states, to be compiled from more reliable sources.

THE MEDITERRANEAN - BLACK SEA HYDROGRAPHIC COMMISSION has begun proceedings setting up a Working Group in order the **INT** charts covering the Mediterranean and Black Sea to be planned and the countries that will undertake the production to be determined. The Group named MEDINT CHART has schemed charts covering the area and the coastal states that will take over the production responsibility has been determined.

The **INT** Charts whose production responsibility is allocated to Turkey are listed on the next page and shown on the index pages.
